Merchants Insurance Group is pleased to provide you with our Marketing Guide. Merchants offers a broad portfolio of commercial property and casualty insurance products. This guide provides an overview of our position on many classes of business, and will help you determine our overall underwriting approach for the classes listed.

Please contact your Territory Manager to determine if there are any state specific guidelines not contemplated in this guide. You also need to review the product eligibility guidelines and your agency binding authority. These documents are located on the Merchants Web Site: www.merchantsgroup.com/

Our risk desirability is shown in this guide by using the following symbols:

- indicates this is a class or line of business that we prefer to write, subject to loss history and other underwriting information.
- ▼ indicates we would like you to discuss the classification or line of business with your Underwriter prior to quoting or binding the exposure, as we may have specific underwriting requirements for the class.
- ⊘ indicates the classification or line of business is not desirable to Merchants Insurance Group and should not be submitted.

Regardless of the symbol shown in the manual, if you have an insured whom you believe would be a good account for Merchants Insurance Group, please contact your underwriter to discuss the risk.
